

Course Title: LEARN AMERICAN STANDARD PRACTICE FROM START TO END

All About Rubber Dam Application, Restorations And SSC

Course Mentor: Dr. Shukan Kanuga

M.S.D, D.D.S

Fellow, American Board of Pediatric Dentistry

Dr. Kanuga completed her Pediatric dentistry training with a MSD degree from one of the most esteemed programs at the University of Washington, Seattle in 2009. She was a dentist in India (GDCH, Ahmedabad) before she came to the US in 2002. She received her DDS at the University of California, Los Angeles (2006); and continued her training in hospital dentistry (2007).

Dr. Kanuga serves as the Secretary on the board of directors at the San Fernando Valley Dental Society (SFVDS), has served as the Editor on SFVDS for over 6 years a board member of the California Society of Pediatric Dentistry and an Evidence Reviewer for the American Dental Association. She has multiple publications under her belt in esteemed journals including the Journal of American Dental Association (JADA).

She has presented at the AAPD annual conference in May 2018 and May 2020. She has been a KOL with Elevate Oral Care, and is a KOL for DMG America and Shofu Dental.

She established her state of the art fully digital pediatric and orthodontic group practice, Kidz Dental Care in April 2018 in Santa Clarita, CA. Dr. Kanuga is known for her fast, efficient and gentle patient care to the point that the anesthesiologists that work with her call her one of the fastest pediatric dentists in the state of California in terms of restorative dental treatment. She is also a partner at Kidz Dental Care in Porter Ranch, CA.

Course Title: Learn American Standard Practice from Start to End All About Rubber Dam Application, Restorations And SSC

Course Outline:

Hands-on clinical restorative pediatric dentistry simplified: how to be fast, efficient and productive while delivering a "Wow" patient experience.

The 1st half day will be spent reviewing real cases with clinical scenarios and radiographs and coming up with practical valid treatment plans for the same. We will then be applying these and learning the most efficient ways of restorative pediatric dentistry with hands on workshop on day to day procedures like 1, 2 and 3 surface Composite and Glass Ionomer restorations (prep+ restore) on anterior and posterior primary teeth, anterior composite strip crowns, Stainless Steel crowns (SSCs) and Zirconia crowns using Rubber dam and other high level Isolation systems.

The 2nd half of the day will be devoted to Minimally Invasive Treatment options including diagnosis and treatment planning, learning when and where these are appropriate and techniques like application of Silver Diamine Fluoride with and without SMART restorations and Hall SSCs, Hall style anterior GIC strip crowns. Appropriate follow-up and maintenance protocols will be reviewed.

Course Fees: Rs. 999/- +GST (Includes breakfast, lunch, materials for workshop)

* Instruments/equipment to be brought by the students will be informed in respective workshop WhatsApp groups.
