Course Title: CAPTURE TO INSPIRE

Clinical Dental Photography Simplified

Course Outline:

“A picture is worth a thousand words”

With the advent of digital media pictures have become an integral part of our daily experience. Dental Photography is now an integral component of documenting clinical record.

Many perceive this to be a daunting task presuming its very technical and time consuming.

The **primary objective** of this workshop is to remove this false presumption and help the post graduates integrate clinical dental photography in their clinical workflow seamlessly.

Be it Mobile or DSLR camera, the basics of dental photography like the patient-operator position, soft tissue handling and composition basics stay the same.

In this workshop, you will learn how to take clinical pictures par global standard in a simplified and doable manner.
